Japan Automatic Machine Co., Ltd

Acquisition of Kyowa Fine Tool Co., Ltd.

Japan Automatic Machine Co., Ltd. (J.A.M.) has acquired all shares of Kyowa Fine Tool Co., Ltd. (KFT) as of the 18th March 2022 and made it a new J.A.M. group company. KFT is mainly engaged in designing and manufacturing of moulds for electrical terminals being installed in automotive electrical components and the production of progressive-die-press products, and has strength in mould processing technology. As J.A.M. Group companies, both the companies will generate synergies in technology and manufacturing through broad range of collaboration.
