

## Press Release

Japan Automatic Machine Co., Ltd (J.A.M) and WEETECH GmbH (WEETECH) have agreed a Global Technology Partnership. The Partnership will result in a global offering of outstanding solutions for the wire processing stripping, crimping, and testing world.

WEETECH and J.A.M. have a long history of excellent and successful products that help many customers worldwide to fulfill their demanding tasks every day. As a result of this Global Technological Partnership, customers will have access to a wide portfolio of existing and new product solutions, will benefit from the shared technology experience and know-how of both companies. WEETECH and J.A.M. together will increase their value-add offer to their customers through this Global Technology Partnership.

For more than 50 years WEETECH with headquarters in Wertheim, Germany, have been developing and producing testing systems for cables, backplanes, electronic components, and assemblies. We are a reliable partner for companies in the automotive, industrial, aerospace and transport sectors. WEETECH GmbH has been a 100% subsidiary of Halma since 2022.
